Participants will have already gained significant experience and knowledge in festival management and are looking to deepen their knowledge, learn new skills and to apply the course learning to the festivals that they operate and programme. We are inviting applications for two UK based festival consultants, festivals or institutions to co-design and deliver the training with each other and Indian based counter-part Divya Bhatia.

As outlined in our [South Asia Arts Strategy](#) the British Council is committed to creating opportunities, building connections and engendering trust, and in making a positive contribution to the people, institutions and governments of the countries we work in. By working with the innovation and creativity of the UK, we develop programmes that foster cultural exchange and support economic, social and cultural prosperity, and result in strengthening connections between the people of South Asia and the UK.

2.2 India's Festivals Sector

Festivals reflect India's rich cultural history and express it's contemporary artistic and social trends and creativity, their output strengthens local, national and international connections. They contribute

to an inclusive society through community cohesion and a celebration of shared cultural heritage, reaching large and diverse audiences.

The Indian independent festival sector is a space for the production of new art to new audiences, and while the majority of festivals engage with a cross-section of society most festival goers in India are under the age of 30 and are open to experimental international art. KMPG research on media and entertainment industry in India project 18% annual growth in live events in India over the next five years which means that supporting India's festival industry provides more potential opportunities between UK and India in creative exchange, collaboration and programming.

There is no formal national funding system for the independent arts in India. Business models for emerging arts festival are evolving around enterprise, digital innovation and entrepreneurship in India. Developing skills to support this growth and the creative talent working within the sector now and in the future is key to its success and realising potential of the India festivals sector.

Stage 1: Tender responses will be checked to ensure that they have been completed correctly and all necessary information has been provided. Tenders responses correctly completed with all relevant information being provided will proceed to Stage 2. Any tender responses not correctly completed in accordance with the requirements of this RFP and/or containing omissions may be rejected at this point. Where a tender response is rejected at this point it will automatically be disqualified and will not be further evaluated.

Stage 2: The completed applications will then be reviewed to confirm that the potential supplier meets all of the qualification criteria set out in the questionnaire. Potential suppliers that meet the qualification criteria will proceed to Stage 3. Potential suppliers that do not meet the qualification criteria set out may be excluded from the Procurement Process at this point. Where a potential supplier is excluded at this point, its tender response will be rejected in full and not evaluated further and the supplier will automatically be disqualified from this Procurement Process.

Stage 3: If a bidder succeeds in passing Stages 1 and 2 of the evaluation, then it will have its detailed tender response to the British Council's requirements evaluated in accordance with the evaluation methodology set out below. Information provided as part of Qualification Questionnaire (*if used*) responses may also be verified as part of this stage.

14.2 Award Criteria – Responses from potential suppliers will be assessed to determine the most suitable tender using the following criteria and weightings and will be assessed entirely on your response submitted:

Criteria	Weighting
Quality	60%
Methodology and Approach	40%

14.3 Scoring Model – Tender responses will be subject to an initial review at the start of Stage 3 of the evaluation process. Any tender responses not meeting mandatory requirements or constraints (if any) will be rejected in full at this point and will not be assessed or scored further. Tender responses not so rejected will be scored by an evaluation panel appointed by the British Council for all criteria other than Commercial using the following scoring model:

Points	Interpretation
10	Excellent – Overall the response demonstrates that the bidder meets all areas of the requirement and provides all of the areas evidence requested in the level of detail requested. This, therefore, is a detailed excellent response that meets all aspects of the requirement leaving no ambiguity as to whether the bidder can meet the requirement.
7	Good – Overall the response demonstrates that the bidder meets all areas of the requirement and provides all of the areas of evidence requested, but contains some trivial omissions in relation to the level of detail requested in terms of either the response or the evidence. This, therefore, is a good response that meets all aspects of the requirement with only a trivial level ambiguity due the bidders failure to provide all information at the level of detail requested.
5	Adequate – Overall the response demonstrates that the bidder meets all areas of the requirement, but not all of the areas of evidence requested have been provided. This, therefore, is an adequate response, but with some limited ambiguity as to whether the bidder can meet the requirement due to the bidder's failure to provide all of the evidence requested.

3	Poor – The response does not demonstrate that the bidder meets the requirement in one or more areas. This, therefore, is a poor response with significant ambiguity as to whether the bidder can meet the requirement due to the failure by the bidder to show that it meets one or more areas of the requirement.
0	Unacceptable – The response is non-compliant with the requirements of the RFP and/or no response has been provided.

14.4 Commercial Evaluation – is not applicable to this RFP due to the fee being out prior:

14.5 Moderation and application of weightings – The evaluation panel appointed for this procurement will meet to agree and moderate scores for each award criteria. Final scores in terms of a percentage of the overall tender score will be obtained by applying the relevant weighting factors set out as part of the award criteria table above. The percentage scores for each award criteria will be amalgamated to give a percentage score out of 100.

14.6 The winning tender response – The winning tender response shall be the tender response scoring the highest percentage score out of 100 when applying the above evaluation methodology, which is also supported by any required verification evidence (to include, without limitation, any updated information or references relating to any Qualification Question responses) obtained by the Authority relating to any self-certification or other requirements referred to in the Qualification Questionnaire (*if used*). If any verification evidence requested from a supplier, or a relevant third party as may be referred to by the supplier in the Qualification Questionnaire (*if used*) as a party prepared to provide such information, is not provided in accordance with any timescales specified by the British Council and/or any evidence reviewed by the British Council (whose decision shall be final) does not demonstrate compliance with any such requirement, the British Council may reject that tender response in full and disqualify the potential winning supplier from the Procurement Process at that point.
